

ABOUT ME

I'm Lim Chong, I was born in Kuching, Malaysia. I'm a designer and I received my Diploma in Interior Design from Limkokwing Institute of Creative Technology. With 5 years of experience in the industry, I bring a blend of creativity and technical skills to every project I undertake. My goal is to create designs that not only captivate visually but also resonate functionally with users. From concept to execution, I pay meticulous attention to detail, ensuring that each design reflects the unique identity. In 2019, I stepped out of my comfort zone and spent a year working while traveling in New Zealand. I adapted to new environments, enhanced my communication and problem-solving skills while gaining a deeper understanding of global perspectives and cultural diversity.
